

Simply, leave the light on...

[www.inluxx.com](http://www.inluxx.com)

## IX Smart Lighting means

Use benefits as motion- and daylight sensors in every single luminaire.

Daylight is a very valuable factor and free of charge. Inluxx luminaires acknowledge daylight as secondary power supply source at no costs.

**Collect air data, temperature, humidity and emission.**

Dimming provides a pleasant feeling and exactly according to your need and demand.

**92% energy and emission savings** = proved achievements.

Shortest amortizations have been reached, which makes the INLUXX solution as an efficient and profitable partner for your company and infrastructure set up.

**Get ready to use all available technologies.**
